European Union Directive 2015/863 restricts the use of 10 hazardous substances. This self-declaration covers the compliance of E-Z LOK threaded inserts to the material composition limits of the restricted substances listed in the Directive and subsequent amendments.

With the exemption for lead as an alloying element in steel and copper (Annex paragraph 6), **all E-Z LOK threaded inserts are RoHS compliant with the following exception:**

Die Cast Zinc Alloy Hex Drive Inserts for Soft Wood

Part Numbers 8XXXXXX-XX; 9XXXXXX-XX

Reason: Hexavalent Chromium finish

A handwritten signature in black ink, appearing to read 'Steve Schaeper', written over a horizontal line.

Steve Schaeper  
Division Manager
